### Events Organized and scheduled (08)

1. Freshman Orientation Program:-One of the toppers of the previous B.E class Risabh Jhunjhunwala gave a speech to the first year students on how to go about things for the next 4 years. Risabh had also started a startup that had received funding from various VC's.So his inputs on how to go to about building a startup and the obstacles he faced gave a fresh insight on entrepreneurship. The feedback from the students was very good and the talk was inspirational. The event also made first year students aware about E-Cell.
2. Pointer Calculation Workshop: - This workshop was aimed at guiding students about the new scoring pattern so that they could prepare accordingly well in their exams.
3. Basics of Entrepreneurship: -This workshop was to give students a take on what exactly does one mean by Entrepreneurship and the benefits of it not only to one self but to the society in general. The workshop was a success as not only the enthusiastic first years but the second year students participated in it as well.
4. Professor's take: - We conducted a series of interviews where we asked some of the professors in our college for their take of Entrepreneurship and how it and technology could go hand in hand. We also asked for their feedback on how ECell is functioning as a body and where a scope for improvement lies.

Developing the entrepreneurial spirit among students and help them realize their potential.

5. Job v/s Entrepreneurship Group Discussion:- A Group Discussion was conducted to discuss the positives and negatives of jobs and Entrepreneurship. It attended by most FE and SE students and it was a good discussion which gave us a further insight about Entrepreneurship.
6. Website Development:-We had a website development competition for ECell and the winner was awarded a cash prize and was given a certificate of recognition.
7. Entrepreneurship Workshop:-A workshop on entrepreneurship was conducted by Foram Thambawala, a student of the prestigious SP Jain Institute of Management. She gave us an insight into what exactly is business management is all about by conducting an interactive workshop.
8. Internship Fair:-We called companies from outside to hire students for summer internship. The selection process comprised of a Group Discussion, Resume Screening and then in the end a personal interview. Many companies came and took students for both technical and non-technical jobs. The companies also paid a stipend to the students selected.
